ABSTRACT:

An electronic system using collectors, rosters,

notifiers, and links provides a uniform system for communications, information management and human organization. Since the collectors have unique addresses, each collector belonging to a user can be used as a separate email inbox to provide a single user account with multiple email inboxes. Furthermore, collectors can have access control attributes to limit access to the collectors. The notifier provides a uniform location to view incoming new messages and documents. The links can be used to automatically transfer information between collectors as well as providing access authorization to collectors. For example, a link in subscription mode from a first collector to a second collector would automatically copy all documents placed in the second collector to the first collector. Similarly, if the same link were in forwarding mode, documents placed in the first collector are copied to the second collector. Rosters contain links to multiple collectors. A link to a roster is equivalent to a link to all the collectors linked in the roster. In addition sending a document to a roster is equivalent to sending a copy of the document to every collector linked in the roster.

Detailed Description Text - DETX:

FIG. 7(a) illustrates a conventional email system. Paul sends document 710 as an email message to John. Tom sends document 720 as an

email message to John.

John's email inbox 730 receives document 710-1 and document 720-1, which are

copies of document 710 and document 720, respectively.

John then must sort the

documents in email inbox 730.

# Pete Beim's [Unofficial] Eudora FAQs & Links

If you've got questions about Eudora for Windows, download a copy of the manuals, look at the FAQs on this site, and check the links to other Eudora sites, the Newsgroup and the Mailing List. You'll find most of your questions are answered in one of these.

Eudora Pro 4.01 Has Been Released

Format:

Post to the newsgroup (you must register with DejaNews first in order to post)

**Eudora Mailing List**[Back To Index](#)

Still can't find the answer? Try subscribing to the Eudora Mailing List.

- **To Subscribe**

- Regular Mail - Send an e-mail to [majordomo@wso.williams.edu](mailto:majordomo@wso.williams.edu) and in the body of the message, type:

subscribe eudora-win

- Digest - Send an e-mail to [majordomo@wso.williams.edu](mailto:majordomo@wso.williams.edu) and in the body of the message, type:

subscribe digest eudora-win

- **To Post**

Once you are subscribed, you can send your comments to the lists at [eudora-win@wso.williams.edu](mailto:eudora-win@wso.williams.edu)

Ensure you are sending the unsubscribe message from the same email address that you originally subscribed from or your message will get kicked back.

- **To Read The Mailing List Archive**

You can read the Eudora-Win mailing list at <http://wso.williams.edu/listserv/eudora-win/>

- **To Search The Mailing List**

Search for:  Matches Per Page:

Search the archive and Display the Results

- **To Unsubscribe**

Send mail to [majordomo@wso.williams.edu](mailto:majordomo@wso.williams.edu) and in the body, type

unsubscribe eudora-win

Ensure you do not include a signature in the body of the message, and make sure that you are sending the unsubscribe message from the same email address that you originally subscribed from.

### How To Report Bugs Or Submit Suggestions To Eudora

 [Back To Index](#)

-  To report bugs to Eudora, send email to [eudora-bugs@eudora.com](mailto:eudora-bugs@eudora.com). Describe what you did, what happened, what version of Eudora you have, whether you're using the 16 or 32 bit version of Eudora, any error messages Eudora gave (the numbers in ()'s are especially important), what kind of computer you have, which operating system you're using, and anything else you think might be relevant.

You will receive an automated response indicating that your bug report has been received and forwarded to Eudora's engineering staff. Unless additional information is needed, you will not receive a direct response.

- To submit suggestions for improvements to Eudora, send email to [eudora-suggest@eudora.com](mailto:eudora-suggest@eudora.com).

You will receive an automated response indicating that your suggestion has been received and forwarded to Eudora's engineering staff. Unless additional information is needed, you will not receive a direct response.

-  [Add your suggestions to the online list I'm compiling!](#)

### **Site Improvements**

---

 [Back To Index](#)

Let me know how I can improve this site. Here are some things I'm looking for:

- If you know of any good FAQs sites about Eudora not listed on my website.
- If you find any links that are not working or outdated.
- If you find information on this site that is wrong.
- If you know of a better answer to one of the FAQs.
- If you know of a FAQ that should be here but isn't.
- If this site takes too long to download.
